EDUCATION

Bachelor of Science in Information Technology
AMA Computer College,
Langkaan, Dasmariñas City
2014 - 2017

SKILLS

Programming Languages:

Javascript, Typescript, Java,
Nodejs, Python, .Net

Frameworks & Libraries:

React, Next.js, Material-UI,
Shadcn, Redux, Context API,
Tailwind CSS, SASS, Bootstrap

Development Tools:

Git, npm, pnpm, Vite

Databases:

MySQL, MongoDB, SQL Server
Management Studio,
PostgreSQL

Design & Prototyping:

Figma, Sketch, Photoshop

Cloud & DevOps:

Azure DevOps, CI/CD Pipelines,

MS365 & Power Platform:

Power Pages, M365 Dynamics
(CRM/ERP)

AI Tools:

Claude, ChatGPT, Cursor.ai,
Copilot

ACHIEVEMENTS

GitHub Copilot Certificate

Sept. 4, 2025 – Sept 5, 2027

PROFESSIONAL OVERVIEW

Results-driven Full Stack Developer with 7+ years of experience designing, developing, and deploying scalable web applications across front-end and back-end technologies. Proficient in React, Next.js, TypeScript, Node.js, Python, and modern cloud-based development workflows. Experienced in building AI-powered applications, RESTful APIs, real-time systems, and responsive user interfaces with a strong focus on performance, usability, and clean architecture. Adept at collaborating with cross-functional teams to deliver innovative, business-focused solutions while leveraging AI-assisted development tools to accelerate productivity and code quality.

WORK EXPERIENCE

Full Stack Developer

mySMB.com Pty. Ltd. | 2025 – 2026

- Developed and maintained scalable full stack features for an AI-powered chatbot platform using React.js, TypeScript, Node.js, and REST APIs.
- Built responsive and user-friendly interfaces while integrating backend services, WebSocket communication, and real-time chatbot interactions.
- Collaborated with backend engineers and AI/ML teams to implement personalized conversation flows, context management, and API-driven features.
- Designed and optimized API integrations, application performance, accessibility, and cross-platform responsiveness.
- Contributed to deployment workflows, debugging, and overall application stability in agile development environments.

Application Developer Analyst

Accenture Inc. | 2021 – 2025

- Collaborated with stakeholders to understand business requirements and translate them into technical specifications.
- Built and tested application functionality to ensure a desirable user experience across all platforms.
- Design creative prototypes according to specifications.
- Troubleshoot and debug applications.
- Create and maintain technical documentation including system architecture diagrams, API specifications, and user manuals.

IT Assistant

DoubleDragon Properties Corp. | 2017 – 2021

- Provide technical support to end-users for hardware, software, and network-related issues.
- Install, configure, and troubleshoot desktops, laptops, printers, and other peripherals.
- Assist with the setup and maintenance of network equipment, including
